(438)-220-0934 | david.milley@gmail.com || drdavidsmilley.github.io/

Bilingual: English/Français

EDUCATION

The City University of New York, Graduate Center	New York City, USA
Doctor of Philosophy - Anthropology [Archaeology]	2026
Master of Philosophy - Anthropology	2024
Master of Arts - Anthropology	2022
The City University of New York, Hunter College	New York City, USA
Advanced Certificate in Geographic Information Systems	2022
University of Calgary	Calgary, AB
Master of Arts - Archaeology	2020
University of New Brunswick	Fredericton, NB
Bachelor of Arts, First-Class Joint-Honours, Archaeology and Philosophy, 4.0 GPA	2017

EXPERIENCE

Canada Post Corporation	Ottawa, ON
<i>Geographic Information Systems Analyst</i>	<i>December 2025—Present</i>
- Improves data integrity across federal enterprise datasets valued more than \$500M, operating within a Crown corporation's regulated IT environment. - Collaborates with a 10-person cross-functional team to validate and deploy new tools through a staged production roll-out, managing risk and stakeholder sign-off at each phase gate.	
The City University of New York, Graduate Center	New York City, USA
<i>Project Manager – Poverty Point Initiative</i>	<i>3 years, 2022—2025</i>
- Initiated a three-year project, supported by a \$330,000 funding package, at a UNESCO World Heritage Site, defining deliverables, milestones, and resource requirements. - Developed and maintained project timelines and budget, ensuring on-time and on-budget delivery. - Successfully secured competitive funding proposals to finance all project phases. - Procured all necessary permits and regulatory authorizations from state and local government bodies prior to project commencement. - Established an environmental baseline through review of existing site reports and data, informing project scope and risk assessment. - Ensured full regulatory compliance throughout project execution, adhering to all site-specific legal and environmental requirements. - Led a cross-functional field team through three field phases, directing work allocation and ensuring execution. - Managed operational logistics including travel, accommodation, and equipment procurement for remote-site deployments. - Monitored and reassessed project risks in a dynamic field environment, adjusting schedule, scope, and objectives in response to emerging conditions. - Conducted a drone survey using DJI drone to create a 3D-photogrammetry model of site landscape and structure. - Performed extensive landscape modelling in ArcGIS Pro and QGIS using lidar and satellite imagery to reconstruct prehistoric hydrology, movement, and visibility. - Authored project reports for institutional stakeholders, translating and communicating technical findings.	
The City University of New York, Brooklyn College	New York City, USA
<i>Adjunct Professor</i>	<i>2 years, 2021—2023</i>
- Delivered technical presentations to audiences of 30+, adapting communication style to varied levels of technical literacy. - Managed team dynamics, resolved interpersonal conflict, and facilitated structured collaboration across diverse groups. - Designed performance evaluation frameworks and delivered structured, goal-oriented feedback. - Provided individualized coaching and mentorship in regular one-on-one sessions. - Led rapid process redesign under operational constraints, migrating all workflows to remote delivery within a compressed timeline. - Designed and maintained a collaborative online platform to centralize communications, resources, and stakeholder engagement. - Fostered an inclusive team environment to maximize participation, engagement, and collaboration. - Structured regular group problem-solving sessions and peer-review workflows to build team capacity and collaborative practice.	
<i>Genealogical Analyst – The Van Cortlandt Park Project</i>	<i>6 months, 2021</i>
Collaborated with experts and stakeholders throughout New York City, and performed archival and genealogical research, to uncover the lives of the residents of a historic plantation.	
<i>Graduate Teaching Assistant</i>	<i>2 years, 2019—2021</i>
Administered lectures, graded course material, and organized weekly meetings to assist the instructor on record with administering the course.	
The University of Calgary	Calgary, AB
<i>Project Manager – Yaxnohcah Archaeological Project</i>	<i>1.5 years, 2018—2019</i>
- Managed a remote field project in Campeche, Mexico, coordinating operations in a logistically complex environment with no on-site institutional support. - Directed a diverse cross-functional team including Indigenous community members, managing cross-cultural communication and on-site task delivery.	

- Developed complex 3D models using ArcMap and ArcGIS Pro to investigate the environmental impact of Maya canals on the local hydrology.
- Independently secured external project funding through competitive grant applications.

Graduate Teaching Assistant

2 years, 2017—2019

- Assisted in organizing sessions, creating, administering, and grading assignments and examinations. Held office hours and mentored students.

The University of New Brunswick

Fredericton, NB

Software Developer and Research Analyst – STRATUM

5 months, 2021

- Transcribed and analyzed oral interviews to determine user needs for a mobile application.
- Consulted with Indigenous stakeholders to assess concerns and desired app features.
- Performed User Acceptance Testing (UAT) to evaluate app's performance in real-world scenarios.
- Prepared grant proposal and conference presentation to market product and secure funding.

Laboratory Assistant

3 years, 2013—2016

- Digitized thousands of archival records and field reports, cross-referencing with artifact collections to drive modernization and ensure preservations
- Digitally reconstructed an archaeological site using CorelDRAW to model and analyze indigenous dwellings, artifact distributions, and temporal change.
- Digitally restored and enhanced artifact and excavation photos using Adobe Photoshop.
- Organized, documented, and curated precontact and historic artifact collections to facilitate relocation of collection.
- Prepared museum exhibit for public display at Greenspoint Lighthouse.

Archival Imaging Assistant

4 months, 2014

- Digitized archival documents performed quality control, and managed image databases to develop a comprehensive and publicly accessible online newspaper database.

SKILLS

- **Project Management:** Stakeholder reporting and documentation, budget and schedule management, regulatory compliance and permit procurement, risk monitoring and assessment.
- **Geospatial Software:** ArcGIS Pro, ArcMap, QGIS, Python (ArcPy scripting), Agisoft Metashape.
- **Office & Productivity:** MS Office Suite, Google Workspace, LaTeX, CorelDraw, Adobe Photoshop.
- **Field Operations:** UAV/drone operation for site survey (lightweight, sub-permit threshold), remote site deployment and logistics, environmental baseline assessment.
- **Systems & Infrastructure:** Ubuntu Server and Windows Server administration, SSH, RDP, Git and GitHub, front-facing web development (Jekyll and Liquid), FileMaker Pro, ESRI and file geodatabases, hardware assembly and component-level diagnosis and repair, Windows / Ubuntu Linux / macOS.
