- Developed complex 3D models using ArcMap and ArcGIS Pro to investigate the environmental impact of Maya canals on the local hydrology.
- Independently secured external project funding through competitive grant applications.

*Graduate Teaching Assistant*

*2 years, 2017—2019*

- Assisted in organizing sessions, creating, administering, and grading assignments and examinations. Held office hours and mentored students.

**The University of New Brunswick**

**Fredericton, NB**

*Software Developer and Research Analyst – STRATUM*

*5 months, 2021*

- Transcribed and analyzed oral interviews to determine user needs for a mobile application.
- Consulted with Indigenous stakeholders to assess concerns and desired app features.
- Performed User Acceptance Testing (UAT) to evaluate app's performance in real-world scenarios.
- Prepared grant proposal and conference presentation to market product and secure funding.

*Laboratory Assistant*

*3 years, 2013—2016*

- Digitized thousands of archival records and field reports, cross-referencing with artifact collections to drive modernization and ensure preservations
- Digitally reconstructed an archaeological site using CorelDRAW to model and analyze indigenous dwellings, artifact distributions, and temporal change.
- Digitally restored and enhanced artifact and excavation photos using Adobe Photoshop.
- Organized, documented, and curated precontact and historic artifact collections to facilitate relocation of collection.
- Prepared museum exhibit for public display at Greenspoint Lighthouse.

*Archival Imaging Assistant*

*4 months, 2014*

- Digitized archival documents performed quality control, and managed image databases to develop a comprehensive and publicly accessible online newspaper database.

---

**SKILLS**

- **Project Management:** Stakeholder reporting and documentation, budget and schedule management, regulatory compliance and permit procurement, risk monitoring and assessment.
- **Geospatial Software:** ArcGIS Pro, ArcMap, QGIS, Python (ArcPy scripting), Agisoft Metashape.
- **Office & Productivity:** MS Office Suite, Google Workspace, LaTeX, CorelDraw, Adobe Photoshop.
- **Field Operations:** UAV/drone operation for site survey (lightweight, sub-permit threshold), remote site deployment and logistics, environmental baseline assessment.
- **Systems & Infrastructure:** Ubuntu Server and Windows Server administration, SSH, RDP, Git and GitHub, front-facing web development (Jekyll and Liquid), FileMaker Pro, ESRI and file geodatabases, hardware assembly and component-level diagnosis and repair, Windows / Ubuntu Linux / macOS.
